

## 2 - 3 MARCH 2026

CAPE TOWN INTERNATIONAL CONVENTION CENTRE (CTICC) SOUTH AFRICA

# THE AFRICAN GIANT IS STIRRING...

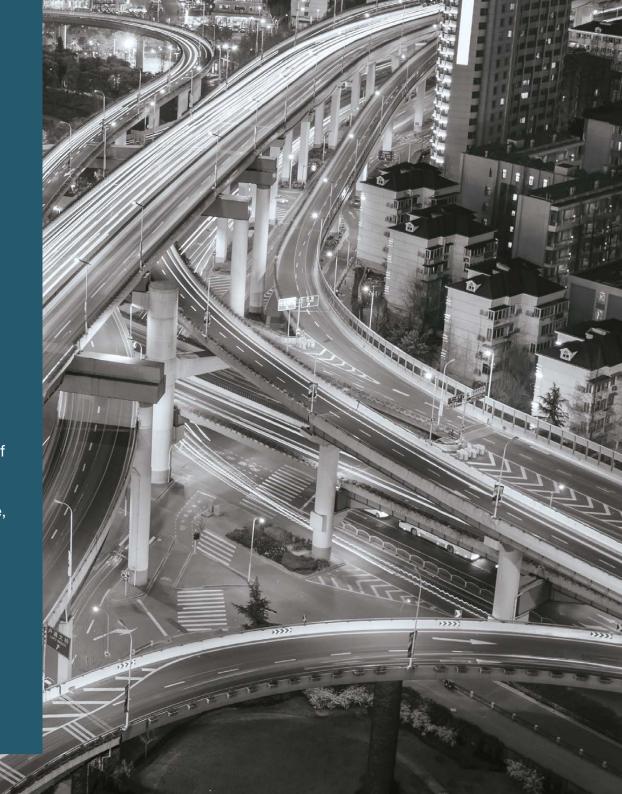

AFRICA, INFRASTRUCTURE & YOU

## THE GIANT AWAKENS

You can hear it in the roar of the roads connecting cities; in the rumble of trains linking businesses across our continent. It's there in the hum of power stations lighting up countries, and in the technology, which makes tomorrow happen today. And yes, it is in the sound of a drop of water bringing hope and health. This is the sound of infrastructure. It is the ring of prosperity, and the promise of opportunity.

Welcome to the summit where infrastructure connects people, places and opportunities.

## INFRASTRUCTURE AFRICA BUSINESS FORUM

These two days may change the way you do business. Key sectors to be featured at the 2026 event include: **↑** 4% ANNUAL GROWTH

of African economies in recent years

Democratic governance has been strengthened over the past five decades, enabling a platform for stable growth and prosperity in most parts of the continent.

There has been 4% annual growth of African eonomies in recent year. The fastest growth has been in resource-rich countries, which have benefited from rising commodity prices.

In almost all cases, however, that performance still falls short of the 7 percent growth needed to achieve substantial poverty reduction and attain the Millennium Development Goals.

Although infrastructure has contributed to Africa's recent economic turnaround, it will need to do even more to reach the continent's development targets.

## INFRASTRUCTURE THE KEY TO AFRICA'S FASTER GROWTH

THE STORY OF AFRICA'S

DEVELOPMENT IS IMPROVING. SIX

OF THE WORLD'S FASTEST GROWING

ECONOMIES ARE IN AFRICA!

#### 2 – 3 MARCH 2026

The 2 day Infrastructure Africa
Business Forum will bring together
business to explore new trading
opportunities, establish new
business networks, develop and
form partnerships and plan a way
forward to address some of the
continent's requirements.

The 11<sup>th</sup> annual Infrastructure Africa Business Forum will present stakeholders with an opportunity to unpack the enormous growth potential in addressing Africa's infrastructure needs.

Africa, with a population exceeding 1 billion people is well placed as an emerging market, keen for investment and growth.

However, to build the infrastructure the continent needs to support growth and meet development goals; Africa will have to spend about \$93 billion a year for a decade.

Two-thirds of that sum would be for investments; the remaining third for maintenance.

Africa already spends \$45 billion a year on infrastructure, two-thirds of which is domestically financed from taxes and user charges.

Most financing for capital investment is obtained from external sources according to the African Development Bank Group.

## INFRASTRUCTURE AFRICA CONFERENCE & EXHIBITION

Infrastructure Africa together, with its strategic partners, provides a platform to engage and discuss the latest global and local infrastructure development trends using one point of entry.

The Conference includes engaging panels and networking experiences that will fit your diary using the latest industry online technology.

This annual event is hosted to empower members of Africa's promising infrastructure development community to:

- Identify global trends;
- Keep abreast with global competition;
- Embrace digital transformation;
- Explore project development opportunities;
- · Enable collaboration on large project developments and
- Acquire insight into what new project development opportunities are available in the new era impacted by COVID-19.

These discussions will pave the way for a more equitable, competitive and successful infrastructure development market and African economy as a whole.

Our event will allow companies and clients to interact safely with each other and keep their business goals rolling this year.

Our top priority is to provide a safe environment for everyone involved; our customers, attendees, partners and colleagues.

However, there remains a large demand for African infrastructure industry news and Infrastructure Africa will host the following:

- The Infrastructure Africa conference with business networking
- A exhibition showcasing your products and services

Our event will allow companies and clients to interact safely with each other and keep their business goals rolling this year. Infrastructure Africa will comprise a series of keynote addresses and panel discussions as well as business networking and the exhibition.

## THE 2026 INFRASTRUCTURE AFRICA BUSINESS FORUM

WHAT WE CAN ACHIEVE AT THE BUSINESS FORUM

To focus on 5 key industry sectors and explore growth potential within these sectors, as well as unpacking challenges and obstacles and finding the solutions for growth in each sector.

To find a way around the excruciatingly slow pace of infrastructure developments at the ground level

To encourage Public Private
Partnerships in the process of
developing world-class infrastructure in
Africa.

To provide a platform
for informative & interactive sessions
with the prime movers of the
infrastructure sector across various
spheres like government, policy makers,
industrial leaders, potential investors &
construction firms.

To enhance policy and regulatory framework so that investor confidence is boosted in the infrastructure sector.

To explore new potential areas in order to provide financial assistance as well as access to finance to the infrastructure players and project developers

### **EXHIBITION SHOWCASE**

#### Are you one of these movers and shakers? Make sure you attend and exhibit

The Infrastructure Africa Company Showcase is highly relevant to companies actively involved in all areas relating to providing solutions relating to infrastructure development in Africa. This extends to services for major infrastructure projects, rural development, urbanisation and cross border PIDA projects.

By taking a booth and showcasing your company at the event you will have the opportunity to network and promote your company to business counterparts, international investors, buyers and governments from across Africa.
